460TH SPACE WING (AFSPC)

APR 03 2018

Mark S. Laudenslager
Chief, Installation Management Flight
460th Civil Engineer Squadron
660 South Aspen Street (Stop 86)
Buckley AFB, CO 80011-9564

Wastewater Unit (8WP-CWW)
Amy Clark
U.S. Environmental Protection Agency, Region 8
1595 Wynkoop Street
Denver CO 80202-1129

Dear Ms. Clark

The 460th Space Wing's current National Pollutant Discharge Elimination System (NPDES) Municipal Separate Storm Sewer System (MS4) discharge Permit No. COR042003 expires on September 30, 2018 as detailed in the enclosed Permit Application Letter issued by the United States Environmental Protection Agency (EPA) Region 8 on 20 December 2017. The NPDES Permit Program regulations at 40 CFR §122.21.d require application for reissuance of permit not less than 180 days prior to its expiration date. Enclosed is the application material and supplementary information requested in the Permit Application Letter for reissuance of the 460th Space Wing's NPDES MS4 discharge permit.

Please find enclosed the completed NPDES Permit Application Form 1 and the Form 1 Permit Application Map. In addition, enclosed is a Form 1 Supplementary Map Table that lists the requested serial number of each existing and proposed intake and discharge structure that would not fit on the map.

Supplemental information requested in the Permit Application Letter is provided below:

- The identification number of the existing NPDES MS4 permit is: Permit No. COR042003;
- There are no previously unidentified water bodies that currently receive discharges from the MS4, therefore there are no known water quality impacts on newly identified receiving waters;
- There are no changes to the number of applicants;
- Proposed changes to the storm water management program are detailed in the 4th year Annual Report hand delivered to EPA Region 8 office 30 March 2018.

If you have any questions, please contact my POC, Mr. Matt Rodgers, at 720-847-7245, or email Matthew.Rodgers.7@us.af.mil.

Sincerely,

MARK S. LAUDENSLAGER, GS13, DAF
